

ALDO A-1070

It was the Paged furniture factory that commissioned us to design Aldo. Jadwiga Husarska-Sobina had already created several award-winning chairs (X-Chair, Boomerango, Polonia). Aldo itself is the 50th chair in Jadwiga’s portfolio.

Aldo owes its distinctiveness to the properties of beech wood. The chair has been designed in such a way, that the legs and the backrest be made from a single piece of wood. At the same time, the seats are easily stackable. In this way, the furniture occupies little space when not used, allowing the maintenance personnel to clean the surfaces in a comfortable way and save space when being transported. It is of particular significance in the case of designing products for contract markets.
