ALTITUDE LOUNGE - RETURN

Altitude is a sophisticated, ergonomically designed furniture range that fits seamlessly into public spaces. Zaneti offers an on-the-go workstation that is convenient and comfortable.

The curved and stylish shape of the pieces would be at home in a hospital as much as in airport lounges, hotel lobbies, or shopping centres. Altitude's innovative design captures attention and offers functionality from the well-known Australian lifestyle company Zaneti.

Zaneti has developed a range of Altitude furniture that surpasses anything seen before, with their public sofas that are accented with neutral colours and durable fabric. The materials are sustainable and have a tidy and clean look with retro-fitted tables that are available to finish the look.

The furniture is treated with anti-corrosion which extends the lifespan and each piece in the Altitude range has a superb finish that is admired for its very professional look and feel.

ABOUT ALTITUDE LOUNGE

Altitude is a specification-led modular lounge system designed for high-traffic waiting and lounge areas. Use curved runs, islands and bays to improve circulation, define zones, and keep layouts consistent over time.

- **Curved modules** for zoning and flow
- **Built for high-traffic** public environments
- **Reconfigurable layouts** as needs change
- **Power-ready options** within the wider family

COMMON APPLICATIONS

- Airport lounges and terminal waiting areas
- Passenger concourses and public seating zones
- Workplace collaboration hubs and breakout areas
- Premium waiting zones in hospitality and commercial interiors
- Hospitals, clinics and civic buildings with long dwell times

Curved modules help form bays, islands and serpentine runs without hard corners. This keeps circulation clear while improving seat density and comfort.

MORE COMFORT. MINIMAL FOOTPRINT.

Altitude Lounge increases comfort while adding less than **70 mm per seat** to overall length. This helps maintain planning grids and circulation targets in terminal environments.

- Improved seat depth and ergonomics
- Minimal increase in total run length
- Comfort uplift versus typical beam layouts
- Suitable for airports and high-traffic waiting areas

SPACE COMPARISON

Standard Beam Seating

2,554 mm

Altitude Lounge (4-seat)

2,827 mm

Increase per seat: **< 70 mm**

CERTIFICATIONS & AWARDS

Quality and environmental management standards, plus recognised design credentials.

FAQS

[Is Altitude Lounge suitable for airports and passenger terminals?]

Yes. Altitude Lounge is designed for high-traffic public interiors, including airport lounges, terminal

waiting areas, concourses and premium gate lounges.

Can Altitude Lounge be reconfigured later?

Yes. The modular design supports layout changes, expansions and component replacement as floorplans and passenger flows change over time.

What is the typical lead time?

Typical lead time is **12 weeks**, subject to configuration, upholstery and current production schedules. Share your module list and finishes and we'll confirm delivery to your site.

Can I specify power and USB charging?

Yes. Power-ready options are available through the wider Altitude family, including tables and power modules. We can help plan power locations to suit dwell times and circulation.

What upholstery options are available?

Specify upholstery to suit the project brief, cleaning needs and durability targets. Share your requirements and we'll recommend suitable commercial textiles and colours.

Can you support PRM / accessible seating requirements?

Yes. Universal design options include accessible embroidery and raised seat height options, subject to the selected module and brief.

How do I get a layout recommendation?

Send your plan (PDF or DWG), preferred seat count and constraints such as circulation widths and power. We'll propose a configuration and module schedule.

AIRPORT MODULAR LOUNGE SEATING – SPECIFICATION SUPPORT

FORMLINE supplies **airport lounge seating** and **modular terminal seating** for Australian projects. If you are planning a concourse upgrade, gate lounge refresh or premium waiting zone, we can help with module selection, zoning layouts, power planning and documentation support.

SPECIFICATION FEATURES

Back-to-back module

Fixed alignment keeps spacing consistent between seats.

Acoustic panel option

Optional timber casket or acoustic divider between seats.

Universal design

Accessible embroidery and raised seat height options.

BRAND

Zaneti

Zaneti is an Italian furniture brand celebrated for its craftsmanship, refined design, and enduring quality. The brand specialises in chairs, tables, bases, and bespoke pieces, with a strong focus on aluminium outdoor furniture designed for both residential and commercial use.

Each collection reflects Italian design sensibility — combining elegance, proportion, and durability. Using premium materials such as aluminium, steel, and timber, Zaneti creates furniture that brings warmth and character to cafés, hotels, workplaces, and public spaces.

Hospitality Furniture Concepts offers the full Zaneti range in Australia, helping designers and operators furnish interiors and outdoor areas with timeless, design-led pieces built to last.

ZANETI

The latest on offer from Australian design studio, Zaneti. The brand specialised in designing chairs, tables, bases and bespoke pieces. They are specifically known for their work with aluminium outdoor furniture. Zaneti chairs and bases inject style and personality into any room. Made from an assortment of materials including quality wood, steel and aluminium they’re the perfect pieces to freshen up an interior.
