

ASCENT

Ascent takes airport and passenger terminal furniture to new heights of freedom and flexibility.

Ascent is a modular beam seating system, easy to set up and customize, to bring a captivating and inviting charm to any terminal area. Using straight, curved, and concave shapes, you can create unique seating arrangements tailored to the specific location.

Ascent's gentle curves, smooth textures, and sustainable wood also contribute to creating a warm and welcoming atmosphere that encourages passengers to sit down and relax.

FORMLINE is the exclusive distributor of Green Furniture Concept for airports and passenger terminals in Australia.

ABOUT GREEN

Green Furniture Concept designs modular seating and lighting systems for high-traffic public interiors, using nature-led forms to guide movement, improve comfort and add warmth.

Sustainability and materials

- Materials are selected to reduce impact, using renewable and recyclable inputs and a high share of recycled/upcycled content where possible.
- Environmental policy focuses on preventing harmful substances and pushing low-tox choices from the design stage.
- Modular thinking supports repair, replacement and reconfiguration to extend product life.

Specifier note: Include your layout intent (runs, islands, bays), power needs and cleaning requirements in your quote request.
