

BERNÚ AERO WOOD

Bernù® Aero Wood adds warmth to waiting areas and public spaces. Available in two to five seat linear, curved, and cluster units, with optional arms and tables.

It's innovative peg construction affixes seats to the beam without the clutter of exposed fasteners, allowing for quick installation and ease of maintenance.

PRODUCT DESCRIPTION

BERNÙ AERO BY ARCONAS - PREMIUM AIRPORT BEAM SEATING

The **Bernù Aero** is a modular **airport beam seating system** engineered for high-traffic terminals and public transport environments.

Designed and manufactured by Arconas, it delivers long-term durability, integrated power solutions and flexible configuration options for international airports.

Specified across global aviation projects, Bernù Aero is suited to departure lounges, gate areas, check-in halls and transport waiting zones where **passenger comfort, durability** and **maintenance efficiency** are critical.
