

ROSE BOOTH

Curved lines and minimalism define the Rose.

The low-positioned backrest resembles a floating capsule, offering a comfortable lumbar support and simplistic yet modern design. The upholstery is integrated with a powdercoated, steel tube frame, mirroring the round elements of the cushions.

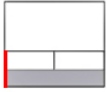

How it works

Create a truly unique interior for your space through our custom booth and banquette manufacturing process, where we will assist you in finding the perfect seating solution. Each design carries specific unit lengths, which can be lengthened and customised to suit any application.

To get started, we'll need to know:

- Your selected **booth style**;
- The intended seating capacity/**configuration** of the space;
- Your personal touches, selected from available **upholstery** and **framing finishes** (see below).

Standard unit dimensions

			
Height 850 mm	Depth 570 mm	Unit length Custom	Seat height 450 mm

BOOTH ROSE FOR HOSPITALITY FIT-OUTS

Booth Rose is a custom commercial booth seating option designed for restaurants, cafés, bars and hotel dining areas.

It suits venues that want a softer, refined look while keeping the durability needed for high-traffic hospitality use.

This style of upholstered banquette seating helps maximise seating capacity, keeps circulation clear for staff, and creates a more consistent layout than loose seating.

Commercial Specification

- Custom lengths to suit wall dimensions and table modules
- Commercial upholstery options (fabric or vinyl), selected per project
 - High-density foam options for comfort and long service life
 - Built for hospitality environments with frequent daily use
- Ideal for straight runs, corner booths and continuous wall seating

How to Specify Booth Rose

For accurate pricing and lead times, confirm your preferred layout (straight, corner or U-shape), overall wall length, table sizes, and the upholstery direction you want.

If you have plans, send them through and we can recommend booth depths, seat heights and aisle clearances to suit service flow.

PROJECTS USING BOOTH ROSE

Each Booth Rose installation is made to suit the site. We build to your wall lengths, table centres and join details, so the booth reads as part of the architecture rather than an add-on.

Need a Booth Seating Quote?

Use the form below to request pricing, upholstery options and lead times for Booth Rose. Include plans or a quick sketch and we will help confirm the best layout for your venue.

BUILT WITH STRUCTURAL PLYWOOD FRAMING

Our commercial booth seating is constructed using structural-grade plywood framing, engineered for hospitality environments where durability matters.

Frames are built for long-term stability in restaurants, cafés, clubs and hotel dining spaces.

- Structural plywood construction
- Custom lengths & configurations
- Manufactured locally in Melbourne
 - Typical lead time: 5-6 weeks

COMMERCIAL-GRADE SEATING FOAM

We use premium-grade foam supplied by [Dunlop Foams](#), one of Australia's leading manufacturers.

High-density commercial foam supports long-term shape retention, comfort and durability in high-traffic venues.

- High-density commercial foam
- Suitable for high-traffic venues
- Designed for long-term performance
- Manufactured to commercial seating standards

CHOOSE YOUR UPHOLSTERY

Select from a wide range of commercial fabrics and vinyls suited to hospitality fit-outs.

- Instyle
- Warwick
- Wortley
- Kvadrat
- Maharam
- Laine

FREQUENTLY ASKED QUESTIONS

What is the typical lead time?

Our standard manufacturing lead time is 5-6 weeks depending on configuration and fabric availability.

Can I choose custom lengths?

Yes. Booth seating is manufactured to suit your layout, including straight runs, corners and wall-to-wall installations.

What foam is used?

We use high-density commercial foam supplied by Dunlop Foams, designed for long-term durability in hospitality environments.

Can I select my own fabric?

Yes. Choose from Instyle, Warwick, Wortley, Kvadrat, Maharam and Laine. Samples can be arranged on request.
