

## SORA TABLE BARREL

**Sora Table** is a sculptural dining table defined by soft curves and a calm, architectural presence. Crafted in timber, the oval top rests on two pedestal bases, creating strong visual balance and generous leg clearance.

Designed for residential and commercial interiors, the Sora Table suits dining rooms, meeting spaces, and hospitality settings where durability and refined form matter. Its natural finish highlights the timber grain, bringing warmth and simplicity to modern interiors.

Available in multiple sizes and finishes, the Sora Table works as a statement dining table, boardroom table, or collaborative table for contemporary spaces.

Height: 760 mm  
Barrel top : 1000x2190 mm  
Barrel top : 1090x2600 mm  
Barrel top : 1200x2400 mm

[Timber Table FAQ \(Commercial Use\)](#)

**Do you make custom timber table sizes?**

Yes. We manufacture to order and can produce custom sizes for restaurants, cafés, bars, hotels and workplaces.

**Which stain finish should I choose?**

Use the stain swatches above as a guide. For fit-outs, we can also support stain matching to align with joinery and interior finishes.

**Are these tables suitable for hospitality venues?**

Yes. Our timber tables are designed for commercial environments and specified for high-traffic dining and public spaces.

**What is the lead time?**

Most made-to-order timber tables are produced within 4–6 weeks. Project quantities and timelines are confirmed during quoting.

**INTEGRATION WITH POWER**

Add **integrated power and USB charging** to meeting tables, boardroom tables, breakout tables and collaborative workstations.

Built-in power reduces loose leads, keeps devices charged, and supports modern workplace fit-outs.

- Cleaner cable management
- Better user experience
- Ideal for meetings + hot desks
- Options: GPO + USB-A/USB-C
- Match colours to your base

**Spec tip:** Share your table size, top material, and where power needs to sit (centre or edge) and we'll confirm the best module and cut-out.

### Choosing the Right Power Module for Your Table

Integrated power works best when you match the module to your table use. Boardrooms often need more GPO outlets for laptops, while breakout and collaboration tables benefit from a mix of **USB charging** and power points. We can help confirm placement, cut-outs, and cable paths so the table stays neat and easy to use.

**Best for:** meeting rooms, boardrooms, breakout areas, shared work tables

**Placement:** centre-of-table or user edge, based on seating layout

**Top type:** confirm timber, compact laminate, stone or other surfaces

**Access:** plan cable entry, under-table trays and floor boxes

## POWER INTEGRATION FAQs

[Ask a question](#)

Can you add power to any table top?

In most cases, yes. The best option depends on the top material, thickness, and where the cut-out can sit without affecting structure.

Share your table top and we'll confirm the correct module and placement.

What is the difference between a dock and a pop-up module?

Docks sit flush or proud on the surface and suit high-use commercial spaces. Pop-up modules can be closed when not in use, which suits meeting tables where you want a cleaner look between sessions.

Where should table power be placed?

Most meeting tables suit centred power. Some layouts work better with power closer to the user edge.

Tell us seat count, table length, and chair positions and we'll recommend placement.

Do you help with cable management?

Yes. We can advise on cable entry points, under-table trays, and routing to floor boxes so the installation stays tidy.
