

DAILY 1

The DAILY 1 chair is a practical product inspired by tradition with its metal frame paired with a wooden back and seat.

The elegant retro-feel design is reminiscent of old-fashioned school chairs and is thus ideally suited to places like classrooms, study halls and lecture theatres. However, the traditional shape means this is a versatile product, slotting seamlessly into public settings, like vintage-look bars and restaurants.

Daily 1 seating is stackable and offers a choice of two finishes for the curved plywood (natural oak or black oak) and two finishes for the frame (black or white). The collection also includes a chair model with arms.

BRAND

Colos

All projects by Colos emerge from the opportunity given to young designers from various nations to encounter the world of Italian industry. This encounter between the designers' esthetic and functional research and the company's great industrial experience leads to solid and elegant products which are developed within an optimized production process.

COLOS

The manufacturing is exclusively carried out in the company factories in Loria, Italy. In doing so, Colos can ensure the quality of its products and of the working conditions of its personnel. Ethical, durable and affordable: this is what a Colos product is to us.
