

GLOW

Soft curves coupled with industrial materials create a modern centrepiece for outdoor entertaining.

- **Fuel:** Bioethanol

SKU: N/A | **Categories:** [Commercial Furniture Accessories](#) |

PRODUCT DESCRIPTION

Streamlined Design

Powered by an AB8 ethanol burner, Glow delivers up to 12 hours of burning time. Perfect for illuminating an outdoor event or simply enriching a room's ambience.

Easily Portable

An absence of restrictive cables or gas connections means Glow is fully portable and can be installed virtually anywhere.

Architectural Feature

Like paving and other in-built outdoor elements, EcoSmart's Glow fire feature increases your enjoyment of the garden.

Dramatic Statement

Soft curves coupled with industrial materials create a modern centrepiece for outdoor entertaining.

Eco-friendly Fire

Powered by e-NRG bioethanol, an environmentally friendly, readably available renewable energy.

Simple Operation

An accompanying lid enables you to quickly extinguish the flame once put into position.
