

LEAFHUB TABLE

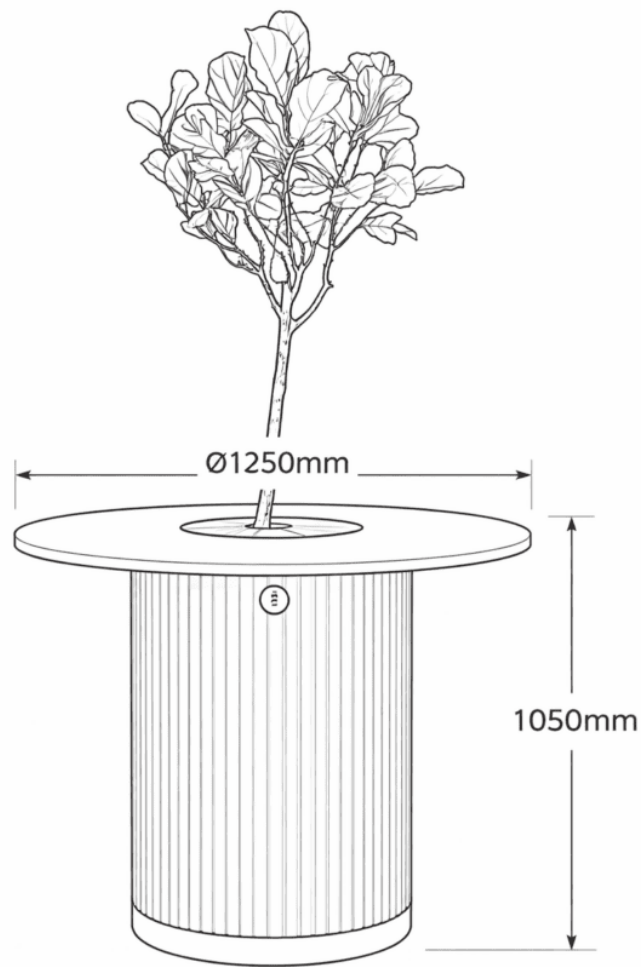

LeafHub is an integrated **planter meeting table** designed for commercial interiors. Built with a durable **metal frame**, timber elements and an integrated **acoustic panel**, it creates a defined collaboration point within open-plan spaces. The **MFC tabletop** is available in a range of **wood finishes and colours**, allowing alignment with workplace, hospitality and public interior palettes. The integrated planter introduces biophilic design while helping to zone breakout and meeting areas.

- **Powder-coated metal structure**
- **MFC tabletop** with timber-look finishes
 - **Integrated planter** feature
- **Acoustic panel** for improved sound control
- Suitable for **workplace, hospitality and education** projects

LeafHub suits offices, hotels, universities and commercial lounges where durability, acoustic comfort and material warmth are required.

PRODUCT DESCRIPTION

INTEGRATION WITH POWER

Add **integrated power and USB charging** to meeting tables, boardroom tables, breakout tables and collaborative workstations.

Built-in power reduces loose leads, keeps devices charged, and supports modern workplace fit-outs.

- Cleaner cable management
- Better user experience
- Ideal for meetings + hot desks
- Options: GPO + USB-A/USB-C
- Match colours to your base

Spec tip: Share your table size, top material, and where power needs to sit (centre or edge) and we'll confirm the best module and cut-out.

Odyssey Power Dock

Choosing the Right Power Module for Your Table

Integrated power works best when you match the module to your table use. Boardrooms often need more GPO outlets for laptops, while breakout and collaboration tables benefit from a mix of **USB charging** and power points. We can help confirm placement, cut-outs, and cable paths so the table stays neat and easy to use.

Best for: meeting rooms, boardrooms, breakout areas, shared work tables

Placement: centre-of-table or user edge, based on seating layout

Top type: confirm timber, compact laminate, stone or other surfaces

Access: plan cable entry, under-table trays and floor boxes

POWER INTEGRATION FAQs

[Ask a question](#)

Can you add power to any table top?

In most cases, yes. The best option depends on the top material, thickness, and where the cut-out can sit without affecting structure.

Share your table top and we'll confirm the correct module and placement.

What is the difference between a dock and a pop-up module?

Docks sit flush or proud on the surface and suit high-use commercial spaces. Pop-up modules can be closed when not in use, which suits meeting tables where you want a cleaner look between sessions.

Where should table power be placed?

Most meeting tables suit centred power. Some layouts work better with power closer to the user edge.

Tell us seat count, table length, and chair positions and we'll recommend placement.

Do you help with cable management?

Yes. We can advise on cable entry points, under-table trays, and routing to floor boxes so the installation stays tidy.

INTEGRATED PLANTER MEETING TABLES FOR COMMERCIAL INTERIORS

LeafHub is part of our commercial furniture range at FORMLINE, developed for workplaces, hospitality venues and public environments across Australia. Combining a durable metal structure, acoustic panel integration and an MFC tabletop in wood finishes, it delivers both function and visual warmth.

Integrated planter tables are ideal for open-plan offices and collaborative spaces where acoustic control and spatial definition are required. The combination of greenery and structured form supports biophilic design principles while maintaining long-term durability in high-traffic areas.

Specification Support for Projects

We work with architects, designers and project managers to assist with finish selection, layout planning and commercial specifications. LeafHub can be paired with our [commercial chairs](#), [commercial tables](#) and [modular lounge seating](#) to create cohesive interior schemes.

For detailed drawings, lead times and project pricing, contact our team to discuss your fit-out requirements.
