

NIDABA OVAL

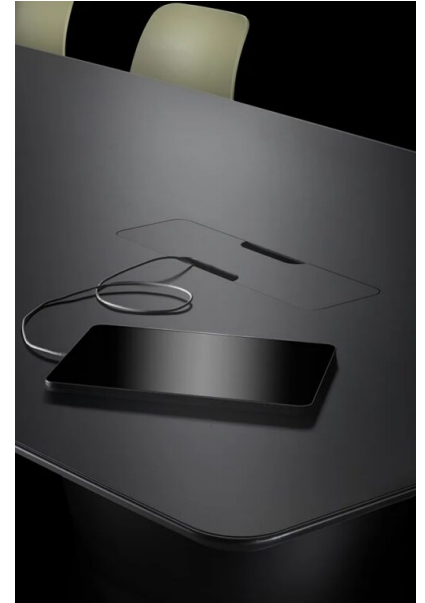

The versatile Nidaba collection comes complete with round or oval laminated or compact laminate tops, with a geometric and minimal base that is in 100% recyclable technopolymer.

These eye-catching Nidaba tables really do catch the eye and surely do not go unnoticed, thanks to their key feature that allows them to change function as needed. On request, in fact, the round table top has a central hole with a container for plants, flowers, snacks, bottles, toys and more. By selecting Compactops, Nidaba tables become suitable for outdoor use. The oval meeting table can be supplied with two cable rooting top access option, in the same material of the table-top, to comfortably utilize electrical devices during meetings. The minimal design of this collection makes sure that it blends perfectly with workspaces or hospitality furniture.

PRODUCT DESCRIPTION

INTEGRATION WITH POWER

Add **integrated power and USB charging** to meeting tables, boardroom tables, breakout tables and collaborative workstations.

Built-in power reduces loose leads, keeps devices charged, and supports modern workplace fit-outs.

- Cleaner cable management
- Better user experience
- Ideal for meetings + hot desks
- Options: GPO + USB-A/USB-C
- Match colours to your base

Spec tip: Share your table size, top material, and where power needs to sit (centre or edge) and we'll confirm the best module and cut-out.

Choosing the Right Power Module for Your Table

Integrated power works best when you match the module to your table use. Boardrooms often need more GPO outlets for laptops, while breakout and collaboration tables benefit from a mix of **USB charging** and power points. We can help confirm placement, cut-outs, and cable paths so the table stays neat and easy to use.

Best for: meeting rooms, boardrooms, breakout areas, shared work tables

Placement: centre-of-table or user edge, based on seating layout

Top type: confirm timber, compact laminate, stone or other surfaces

Access: plan cable entry, under-table trays and floor boxes

POWER INTEGRATION FAQs

[Ask a question](#)

Can you add power to any table top?

In most cases, yes. The best option depends on the top material, thickness, and where the cut-out can sit without affecting structure.

Share your table top and we'll confirm the correct module and placement.

What is the difference between a dock and a pop-up module?

Docks sit flush or proud on the surface and suit high-use commercial spaces. Pop-up modules can be closed when not in use, which suits meeting tables where you want a cleaner look between sessions.

Where should table power be placed?

Most meeting tables suit centred power. Some layouts work better with power closer to the user edge.

Tell us seat count, table length, and chair positions and we'll recommend placement.

Do you help with cable management?

Yes. We can advise on cable entry points, under-table trays, and routing to floor boxes so the installation stays tidy.
