

PAUSE HUB - WITH TABLET

A versatile upholstered lounge chair designed to combine comfort with practical functionality in contemporary commercial interiors. The generously padded seat and supportive high back create an inviting seating position, while the integrated arm and writing tablet provide a convenient surface for working, reading or using a laptop.

The chair features a sculptural upholstered shell with a polished four-star swivel base, allowing easy movement and flexible positioning. Its considered proportions make it suitable for breakout areas, lounges, reception spaces, libraries, education environments and collaborative workplaces.

The integrated tablet makes this chair particularly suited to spaces where users may need to alternate between relaxing and working, providing a compact and functional seating solution without the need for a separate table.
