

PIAZZA 1

The PIAZZA 1 chair - part of the collection designed by Jun Yasumoto for Colos - subtly combines traditional shapes with contemporary materials.

Inspired by traditional '20s cafe seating, this four-legged glass-fibre-reinforced polypropylene chair with backrest is ideal for any space with a refined, retro style.

Strong and comfortable, Piazza 1 lends itself to a virtually endless range of applications: from homes to canteens, from cafes to restaurants, from libraries to meeting rooms, there is no limit to the ways this chair can be used.

The structure has been designed for stacking: this means it can be neatly and compactly stacked away when not in use. An excellent solution for premises that require flexibility, adding and removing seating to meet changing needs.

Available in seven colour options, one-piece Piazza seating also comes in a version with arms (Piazza 2) and a tall bar stool size (Piazza 3).

BRAND

Colos

All projects by Colos emerge from the opportunity given to young designers from various nations to encounter the world of Italian industry. This encounter between the designers' esthetic and functional research and the company's great industrial experience leads to solid and elegant products which are developed within an optimized production process.

COLOS

The manufacturing is exclusively carried out in the company factories in Loria, Italy. In doing so, Colos can ensure the quality of its products and of the working conditions of its personnel. Ethical, durable and affordable: this is what a Colos product is to us.
