

PONTE

From the very first images, Ponte reveals his polyhedral ability to vary structure while maintaining a strongly recognizable style. It goes beyond the standard sofa to become a true soft seating system that can be variously combined: straight, curved, round, mono-facial or bi-facial.

All the upholstered elements of Ponte are in moulded foam and this highlights its perfection, comfort, durability and aesthetic quality.

BRAND

Luxy

Rooted into the Italian artisanal traditions and design, Luxy believes that comfort and craftsmanship drive creativity since 1976. Every project combines sartorial know-how and technology, innovation, and sustainability. The company commits to the highest standards to minimize the effects of the processes: the products are made to last and reduce their environmental impact. Luxy exports to over 40 countries thanks to its network of highly qualified specialists around the world. Always customer satisfaction focused: no matter the location, no matter the project phase.
