

SCHOLAR SEGWAY RETRACTABLE - UPHOLSTERED

The Zaneti Retractable Auditorium Seating System is a premium telescopic seating solution designed for lecture theatres, auditoriums, performing arts centres, schools, universities and multipurpose venues throughout Australia.

Engineered to maximise seating capacity while preserving valuable floor space, the system retracts smoothly when not in use, allowing venues to quickly transform between audience seating and open-floor configurations. Its robust steel structure, ergonomic seating design and high-quality upholstery deliver long-term durability, comfort and performance in high-traffic environments.

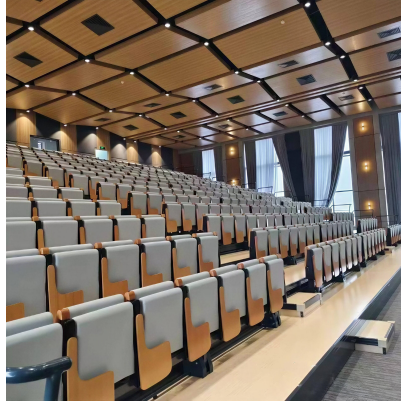

Available in a range of configurations, finishes and upholstery options, the Zaneti Retractable Seating System can be customised to suit project requirements, including seat numbering, aisle lighting, writing tablets, accessible seating positions and integrated power solutions.

Ideal for education, government, corporate and cultural facilities, the system provides a flexible, space-efficient seating solution that combines architectural appeal with exceptional user comfort.

FLEXIBLE SEATING SOLUTIONS FOR MODERN VENUES

Zaneti Retractable Auditorium Seating is designed for venues that require both high seating capacity and flexible floor space. Using a telescopic platform system, seating banks can be extended for events and retracted when not in use, allowing a single space to support multiple functions.

Ideal for educational, commercial and public environments, our retractable seating systems combine comfort, durability and architectural appeal while delivering efficient space utilisation.

APPLICATIONS

Our retractable seating systems are suitable for:

- Universities and lecture theatres

- Schools and educational facilities
 - Performing arts centres
 - Theatres and auditoriums
- Conference and convention centres
 - Civic and community halls
- Sporting and recreation facilities
 - Corporate presentation spaces
- Government and public sector buildings

Whether your project requires seating for 100 or 5,000 spectators, Zaneti can provide a tailored solution to suit the venue.

DESIGNED FOR COMFORT AND PERFORMANCE

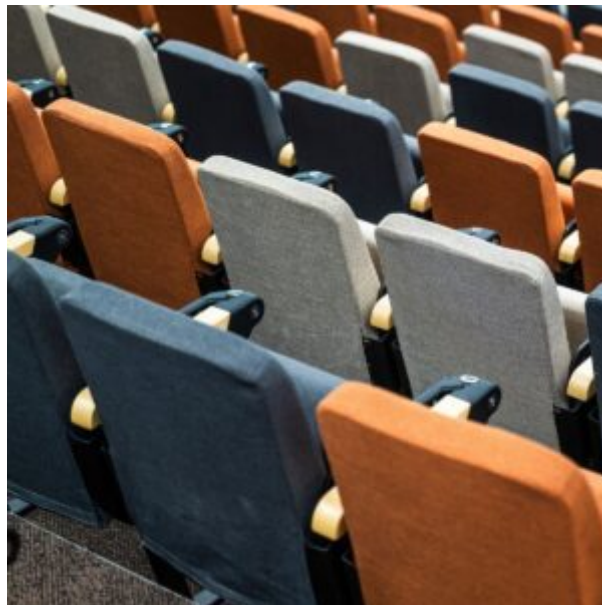

A positive audience experience starts with comfortable seating. Each chair is designed to provide ergonomic support during lectures, presentations, performances and events.

Features include:

- Upholstered seat and backrest
- Automatic gravity-fold seat mechanism
- High-density commercial-grade foam
 - Ergonomic back support
- Premium fabric and finish options
- Durable steel support structure
- Low-maintenance components

AUDITORIUM SEATING OPTIONS

Add-ons that improve wayfinding and seat identification in low-light rooms.

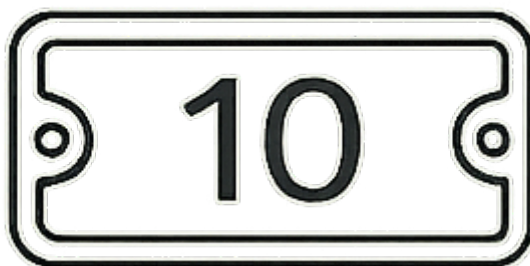

Seat numbering

Row and seat ID for fast wayfinding in auditoriums and lecture theatres.

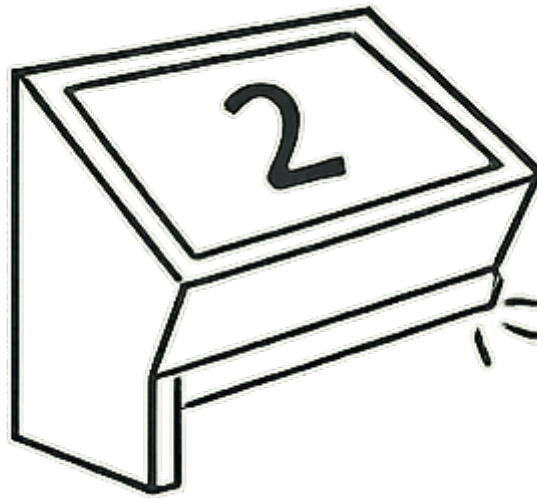

Aisle numbering + light

Clear aisle guidance and safer access in low-light rooms.

Row markers

End-of-row markers for bay identification.

Aisle edge lighting

Low-glare guidance lighting along aisle edges.

MAXIMISE VALUABLE FLOOR SPACE

Unlike traditional fixed seating, retractable auditorium seating allows venues to quickly convert between seating mode and open-floor mode.

Benefits include:

- Increased venue flexibility
- Greater utilisation of available floor space
- Improved return on investment for multipurpose facilities
- Faster room reconfiguration
- Reduced storage requirements compared to portable seating

This makes retractable seating particularly popular in education, performing arts and community facilities where spaces serve multiple purposes throughout the week.

CUSTOMISATION OPTIONS

Every project is different. Zaneti offers a range of customisation options to suit architectural and operational requirements, including:

- Fabric and upholstery selections
- Timber veneer side panels

- Powder-coated metal finishes
 - Seat and row numbering
 - Aisle lighting
 - Writing tablets
 - Accessibility seating positions
 - Power and charging integration
 - Custom seating layouts and configurations
-

BUILT FOR AUSTRALIAN PROJECTS

Zaneti works with architects, education providers, contractors, project managers and venue operators across Australia. Our team can assist with concept development, seating layouts, technical documentation and project delivery to ensure the seating solution integrates seamlessly into the overall design.

From lecture theatres and performing arts venues to large-scale auditoriums and multipurpose halls, our retractable seating systems are engineered to meet the demands of modern public spaces.

WHY CHOOSE ZANETI?

- Australian-based support
- Custom-designed seating solutions
- Suitable for education, government and commercial projects
 - Technical drawings and specification support available
 - Durable construction for high-use environments
 - Flexible layouts and finish options
 - National project delivery

Contact the Zaneti team to discuss your next auditorium, lecture theatre or retractable seating project.

FAQS

[What is retractable auditorium seating?](#)

Retractable auditorium seating is a telescopic seating system that can extend for events and retract when not in use. This allows venues to create seated areas or open floor space as needed.

[Where can retractable seating be used?](#)

Retractable seating is ideal for lecture theatres, schools, universities, auditoriums, performing arts centres, conference venues, civic halls and multipurpose spaces.

[Can the seating be customised?](#)

Yes. Seating can be customised with different upholstery, timber finishes, powder-coated frames, row numbering, seat numbering, aisle lighting, writing tablets and power options.

[Is retractable seating suitable for Australian schools and universities?](#)

Yes. Retractable seating is well suited to Australian education projects where rooms need to support lectures, presentations, exams, performances and open-floor activities.

AUDITORIUM & LECTURE THEATRE SEATING SYSTEM

Scholar Retractable is a commercial **auditorium seating** system engineered for lecture theatres, universities, performing arts centres and multi-purpose public venues where durability, comfort and long-term performance are essential. Designed as a retractable installation, Scholar maintains consistent seating alignment while supporting the spatial flexibility required in dynamic, reconfigurable environments through the use of a collapsible bleacher platform system that is motor-driven.

Built on a robust commercial-grade frame, the system features high-density moulded foam for extended comfort and a silent return mechanism that minimises noise between sessions. Its clean architectural profile integrates seamlessly into tiered lecture theatre layouts, retractable platform systems and adaptable auditorium configurations.

Designed for Education, Performing Arts & Flexible Public Venues Scholar is purpose-built for **lecture theatres**, seminar halls, **performing arts centres** and multi-use auditoria that require reliable seating with minimal maintenance. The system supports efficient aisle planning, clear sightlines and structured seating layouts across both fixed and retractable platforms, enabling venues to transition smoothly between teaching, performance and event modes. **Key Features**

- Commercial auditorium seating system
- Floor or riser-fixed, for use with retractable bleacher/platform systems (motor-actuated)
 - High-density moulded foam for long-session comfort
 - Durable frame engineered for heavy-use environments

- Silent seat return mechanism to minimise disruption
- Suitable for universities, schools and conference venues

Ideal Applications

- Performing Arts Centres
- University lecture theatres
- TAFE and education facilities
- Corporate training centres
- Conference and civic auditoriums
- Seminar and presentation venues

FORMLINE supplies auditorium seating solutions across Australia, including layout guidance, specification support and installation coordination.
