

SPOTTED GUM - SLATTED TABLE TOP

Our timber table tops are expertly manufactured in-house to your specifications.

We offer customisation of sizing, edge profiles and staining.

Australian hardwood with excellent properties for outdoor use, making it a popular choice for long-lasting and durable external surfaces.

The slatted design showcases the beauty of the timber, also allowing for natural movements without compromising its integrity.

Finished in outdoor oils.

Colours

- Cream to pale brown, occasional tinge of subtle pink
- Dependent upon choice of oil/stain

Grain detail

- Texture medium and even
 - Grains mostly linear
 - Gum veining common

FORMLINE proudly uses sustainably and responsibly sourced timber species in our

manufacturing.

Maintenance

With use, this product will require on-going maintenance to keep them looking great.

We recommend re-oiling to prevent cracking and extend its lifetime - [refer to our Care & Maintenance section](#) for full recommendations.

PRODUCT DESCRIPTION

TIMBER TABLE TOPS

SPOTTED GUM SLATTED TABLE TOP

A clean, architectural timber top that suits cafés, restaurants, staff breakouts and meeting areas.

Use it as a feature top, or repeat it across a venue for a consistent look.

Where it works

- Cafés and restaurants
- Workplace breakout and dining

- Education common areas
- Hospitality venues and clubs

Why designers choose it

- Warm timber grain with a modern slatted detail
- Pairs well with black, white and metallic base finishes
 - Easy to specify across multiple table types
 - Works with dining, café and bar-height bases

ranges for a consistent timber story.

FAQs

Can I use this top in a commercial venue?

Yes. It suits high-use hospitality and workplace spaces. Share your site details and we will confirm the best finish and setup.

What bases does it suit?

It pairs well with café, dining and bar-height bases. If you already have a base, tell us the fixing pattern and we will advise.

Can you supply matching tables and seating?

Yes. We can supply table bases, complete tables, and matching chairs or stools for a full fit-out.

OUTDOOR TIMBER TABLE TOPS FOR HOSPITALITY

Our **outdoor timber table tops** suit cafés, restaurants, clubs and venue terraces where a natural timber look matters.

Timber brings warmth and character to alfresco dining areas, bar courtyards and beer gardens.

To support long-term performance, match the top size to a stable base and follow simple care guidelines for outdoor environments.

- Alfresco & hospitality-ready
- Natural timber grain
- Base pairing guidance
- Commercial fit-out friendly
- Care and maintenance advice

What to Consider for Outdoor Timber

Outdoor settings expose timber to sun, moisture and temperature changes. For hospitality use, the best results come from choosing an appropriate finish, allowing for seasonal movement, and selecting a base with the right footprint for the top size.

If your venue is coastal or exposed to salt air, ask us about suitable base finishes and practical maintenance routines.

Best for: patios, terraces, courtyards, beer gardens

Pairing: match base footprint to top size to reduce wobble

Care: wipe spills, avoid harsh chemicals, maintain finish as needed

Coastal use: ask about suitable base finishes and protection

SUSTAINABILITY CERTIFICATIONS

Many projects require certified timber supply. The certifications below support responsible forestry and traceability.

OUTDOOR TIMBER TABLE TOP FAQs

[Ask a question](#)

Are outdoor timber table tops suitable for hospitality?

Yes. Outdoor timber tops are used across hospitality venues including cafés, pubs, clubs and restaurants.

For best performance, match the top size to a stable base and follow basic outdoor care and maintenance.

How do I choose the right base for an outdoor timber top?

Choose a base with a footprint and weight that suits the top size. Larger tops usually need a wider stance or heavier base

to reduce movement and improve stability in high-traffic areas.

Can outdoor timber be used in coastal locations?

Coastal environments can increase wear due to salt air. Ask us about base finishes and practical maintenance routines for outdoor and coastal applications.

Do you provide sustainability certification details for projects?

Yes. Where required, we can support projects that specify certified timber supply and traceability using recognised forestry schemes.
