

TEMPTATION

The Temptation series of waste and recycle bins are manufactured in Germany by Auweko and exclusively distributed throughout the Americas by Arconas. These bins offer an elegant, functional stainless steel solution with a contoured design line. Temptation is available with 1-4 openings in a linear configuration with graphics on both sides to assist users in separating waste correctly (wall mounting options are also available).

Fire Proof

For Temptation, the combination of unobstructed, funnel-shaped apertures with leakproof metal inner containers produces a self-extinguishing effect which means a flame is extinguished in just a few seconds.

The special interior construction prevents the temperature from rising on the sides of the exterior housing and underneath.

Advertising Panel

Temptation waste bins are available with an integrated frame that can be used for information, sponsorship, or advertising.

Notable Features

- Fire proof
- Hydraulic lid

- 1-4 openings
- Optional hood

Select Installations

- Toronto Pearson International Airport
- Chicago O'Hare International Airport
 - Carrasco International Airport
- Various Deutsche Bahn train stations
- Various RioCan Shopping Center Locations

Approvals & Certifications

- Certified by the Linz Fire Protection Institute

Construction

- Body: Stainless Steel grade 1.430/AISI304

About Auweko

Since 1993, Auweko has developed and produced waste and reusable materials systems that unite form and function.

Auweko bins are made from high-quality stainless steel, designed to be weather resistant, vandal resistant and easy to maintain in demanding public environments.

[Auweko Bins FAQ \(Public Space Use\)](#)

Where are Auweko bins commonly used?

Auweko bins are used across public space environments such as airports, transport hubs, streetscapes, universities, shopping precincts and government facilities.

Are Auweko bins suitable for recycling and waste separation?

Yes. Auweko offers modular waste and recycling stations that support clear separation and efficient servicing.

What are Auweko bins made from?

Many Auweko systems use durable stainless steel designed for outdoor exposure, high traffic and easy cleaning.
