

TERRACE BAR FLIP TABLE

NOROCK's only FLIP TABLE.

Interweaving features from the Avenue and Esplanade, the NOROCK TERRACE BAR self-stabilising table base is designed for limited storage capacities. Functional and award-winning, the Terrace's hallmark is its iconic nesting feature: Simply fold, then nest.

With a special alodine coating offering great corrosion resistance and a high-quality powder coat, TERRACE BAR TABLE is suitable for both indoor and outdoor applications.

Self-stabilising table base – NOROCK's award-winning bases use a simple mechanical system with four pivoting legs that are interconnected in such a way that they must reach an average weight loading on all four feet. When a table is placed on an uneven surface the feet will move until all four feet reach a state of equilibrium or more simply, a state of stability.

Material: Aluminium

Powdercoat Base Finishes: Metallic Silver, Sandstone Black, Rust, Antique Bronze, White

*Maximum recommended table top – 760mm
