

VILLA 2

VILLA 2 is a contemporary-looking chair with armrests, inspired by the outdoor seating seen at Parisian sidewalk cafes. The metal mesh - a preformed product made from expanded metal - is combined with four tubular steel elements, resulting in a light yet solid frame. The slim armrests are a natural continuation of the chair's outline and make for more comfortable use.

Villa 2 can be stacked up to 6 high and can also be used as seating for the garden, terrace, al fresco area or open-air events.

Available in five finishes, this steel seating also comes in an armless version (Villa 1) or a stool size (Villa 3A).

BRAND

Colos

All projects by Colos emerge from the opportunity given to young designers from various nations to encounter the world of Italian industry. This encounter between the designers' esthetic and functional research and the company's great industrial experience leads to solid and elegant products which are developed within an optimized production process.

COLOS

The manufacturing is exclusively carried out in the company factories in Loria, Italy. In doing so, Colos can ensure the quality of its products and of the working conditions of its personnel. Ethical, durable and affordable: this is what a Colos product is to us.
